HIGH SCHOOL EDUCATION

- Fundokuhle Secondary School

SKILLS

- Languages: Java, Python, C++,
- C#, HTML, CSS Concepts:
- Object-Oriented Programming (OOP), Software Development
- Life Cycle (SDLC), Web Development, Problem Solving
- Tools: Git

LANGUAGES

- English (Fluent)
- Zulu (Native)

LETHOKUHLE BUTHELEZI

GRADUATE SOFTWARE DEVELOPER

PROFILE

Versatile Computer Science and IT graduate seeking an internship opportunity to apply and grow practical skills in a technology-driven environment. Passionate about using technology to solve real-world challenges, with proficiency in Java, Python, C++, C#, HTML, and CSS, and hands-on experience across desktop and web platforms. A fast learner with strong problem-solving abilities who adapts quickly to new tools and technologies, collaborates effectively and brings out the best in the people they work with.

EDUCATION

2022-2025

UNIVERSITY OF KWAZULU NATAL

- BSc Computer Science And IT

PROJECTS

Quiz Game Application | C++, Visual Studio 2022 2025

- Created a multiple-choice quiz game with score tracking and timer functionality.
- Used debugging tools to trace and fix logic errors
- Designed interactive UI with randomized questions and answer validation.
- Implemented OOP classes for questions, timers, and score logic.

Dental Appointment Booking System | C#, SQL I 2025

lead my team to develop this application

- Built a system to manage dental appointments and patient records.
- Developed CRUD features for managing patients and appointments. Enabled booking, editing, and cancellation with validation.
- Designed user-friendly forms connected to SQL database.

Pulse OS: Financial Intelligence Dashboard | React, Tailwind CSS, PapaParse 2025

- Built a financial dashboard converting raw CSV data into actionable spending insights.
- Engineered a logic-based Recommendation Engine to detect spending leaks and provide automated advice.
- Designed a responsive "Cyberpunk" interface using glassmorphism, dynamic animations, and SVG charts.

COURSEWORK

- Discrete mathematics with applications, Artificial Intelligence, Data Structures and Algorithms, Object-Oriented Programming, Systems Analysis and Design, Mathematical Modelling, Web Development, Database Management, Calculus and Algebra.
